

27th May 2011

Dear Teddington Business Owner,

Launch of the new Teddington Business Community

You are cordially invited to the launch of The Teddington Business Community on **Wednesday, 15th June, 6.30pm** at the **Teddington Baptist Church** in Church Road.

After the successful Open Forum meetings a steering committee was formed. Your feedback has been received and we have prepared a Constitution to form an Association with a new plan of action for an inclusive and active business community. It is now ready to be presented to you.

Why is an active business community so important for Teddington?

Through an active business association, we can build awareness of our own businesses and share knowledge and expertise. It is surprising how many businesses there actually are in Teddington that we do not know about, yet we are often looking for those products and services. Together, we can work towards a more profitable future by supporting each other in business and for the long term benefit of our community.

What's in it for your business?

By joining the TBC, you will be able to promote your business and your business activities. With a proactive plan in place, it is possible to develop a calendar of diverse events throughout the year and throughout the town, giving us a big opportunity to attract more customers from inside and outside of Teddington. Some advantages of being a member of the business community will include:-

1. Business support
2. Business networking
3. Business directory
4. A website with a dedicated members area

Please come along to the meeting to hear the presentation and to have your say. There will be an opportunity to network with fellow businesses and customers at the beginning and end of the presentation.

Best wishes,

Annie Moore and Mel Ellis
Teddington Business Community Steering Committee
